Permanent Single-Process Retouch with a Glaze

Tools and Materials:
- Waterproof cape
- Plastic clips
- Plastic cap
- Shampoo
- Towels
- Color chart
- Protective gloves
- Client record card
- Selected haircolor
- Applicator brush or bottle
- Comb
- Conditioner
- Protective cream
- Cotton
- Timer
- Plastic or glass bowl and applicator brush
- Selected permanent haircolor
- Hydrogen peroxide

Procedure:
1. Part dry hair into four sections.
2. Apply color to new growth using ¼ inch partings. Do not overlap onto previously colored hair. Overlapping may cause damage and a line of demarcation (a visible line between colored hair and new growth).
3. Complete all four sides and set timer for 45 minutes. Rinse and towel dry.
4. Prepare a no lift deposit only glaze formula to apply to the mid-strand and ends.
5. Apply the no lift deposit only glaze and work through the hair
6. Check hair color results.
7. Style the hair.
8. Complete the client’s record.
